Additional Information Pertaining to the Guidelines for Donor Recognition and Naming Opportunities

An “interactive” or “computer interactive” is a station located in the museum gallery where visitors will use technology to explore in more depth information about people and concepts.

A “digital trail” is additional information about a person or theme that serves as a self-guided tour accessed from a smart phone or similar mobile device while in the museum galleries. An app will be required to access the content.

Based on a conservative estimate of computer hardware lifespan and software upgrades, recognition on both “computer interactives” and “digital trails” will be limited to three to five years.

Selected recognition is subject to the approval of the Board of Directors of the Jamestown-Yorktown Foundation, Inc. Executive Committee and the Jamestown-Yorktown Foundation Board of Trustees Executive Committee.

Unless stated otherwise in writing, naming and recognition opportunities will be in effect for the life of the building, space or exhibit.
